

## Cashier Copy

The below text can be displayed at checkout next to the INSTADEBIT payment option and/or on your web page that lists and describes available payment methods.

There are two features that are beneficial for customers to know before selecting the INSTADEBIT payment method:

1. Supported Banks
2. In-transaction Signup

If space permits, these two items should always be included in descriptions of INSTADEBIT to ensure customers who are unfamiliar with the solution know whether they are able to use it or not.

### 2.1 What is INSTADEBIT? – Long
